

Set Me Free Bird Shaped Card with Stencil System

7 MAY 2026

Create a stunning shaped bird card using a six-stencil layering system with vibrant watercolour effects in pinks, purples, and golds. This project features a three-dimensional bird design with silhouetted foliage and architectural elements that can stand freely on a table or be mounted on a card base. The main techniques include layered stencilling, watercolour blending, and die-cutting to achieve a striking dimensional effect.

STEP 1

STEP 2

Prepare your card stock and follow the six-stencil system numbered 1-6 on the back of the die. The system includes coordinating dies and stencils for layering floral designs.

STEP 3

Work through stencils two through six in sequence, layering the colours to gradually build up the hummingbird and floral design on your card panel. **Watch this step:** 54:45 into the show

STEP 4

Use the detailed bird die from the stencil and die set to cut out the coloured bird image. Carefully remove the die-cut bird shape from the card. **Watch this step:** 55:00 into the show

STEP 5

Use the exterior die from the Set Me Free stencil and die set to cut the outer shape of your card. This creates a shaped card that will stand upright on a table. **Watch this step:** 55:15 into the show

STEP 6

Apply glitter paste through the hummingbird stencil to create a sparkly layer. Allow to dry, then cut out the detailed overlay using the coordinating die. **Watch this step:** 55:45 into the show

Add white gel pen highlights to the bird and floral elements to enhance details and create additional dimension. Focus on areas that would naturally catch light to make the design pop. **Watch this step:** 56:00 into the show

For a flat card design, use only the stencils from the Stamps By Me set without cutting. The stencils can create beautiful images on their own when used with inks or other colouring mediums. **Watch this step:** 55:30 into the show

TIPS FROM THE SHOW

- You can make three cards at once by stencilling all layers on three pieces of card stock
- The stencil system is numbered so you can follow the exact colour progression shown on the die
- You can use tropical colours, muted vintage tones, or any colour palette you prefer
