STEP BY STEP

1

STEP 1 OF 9

Cut three pieces of cardstock to 2.5 inches using a tag punch or tag die, or print a tag template and cut by hand.

WATCH THIS STEP - 6:45

2

STEP 2 OF 9

Heat emboss the Beautiful Notes stamp onto vellum using white embossing powder, keeping your heat gun hot and not holding it too close to avoid cockle.

WATCH THIS STEP - 7:15

3

STEP 3 OF 9

Heat emboss the Beautiful Notes stamp onto vellum again, this time using Halo embossing powder to create an iridescent effect with rainbow colours.

WATCH THIS STEP - 10:30

4

STEP 4 OF 9

Wet the centre of one tag piece with clean water using a brush, then drop blue ink into the wet area to create a soft halo effect, letting the water blend the colour naturally.

WATCH THIS STEP - 19:15

5

STEP 5 OF 9

Create a second tag with purple ink, wetting the cardstock and dropping colour into the centre, then blending with clean water around the edges.

WATCH THIS STEP - 21:45

6

STEP 6 OF 9

Glue two tag pieces together back-to-back to strengthen the card, then score a line on the back to create a fold for the freestanding effect.

WATCH THIS STEP - 27:00

7

STEP 7 OF 9

Adhere your heat-embossed vellum piece flat to one tag, then layer your second embossed piece on foam pads for dimension.

WATCH THIS STEP - 27:30

8

STEP 8 OF 9

Apply rub-on sentiments such as 'Bold in Progress' or 'Enough' by peeling back the carrier sheet, positioning it straight, rubbing firmly with a tool, then peeling away.

WATCH THIS STEP - 41:00

9

STEP 9 OF 9

Thread twine through the tag hole and tie in a bow, curling the ends with your finger for a decorative finish.

WATCH THIS STEP - 44:00

TIPS FROM THE SHOW

- You don't need a tag die or punch—you can print a tag template from Google and draw around it, then cut by hand.
- Keep your heat gun really hot when embossing onto vellum and don't hold it too close to avoid cockle in the material.
- The Beautiful Notes stamp design can be reworked or cut down if it's too chunky for your tag size.
