

Two-Tone Split Panel Card with Grayscale and Watercolour Pencil Detail

A PROJECT FROM OUR LIVE SHOW - CREATE TOGETHER CLUB - 30 MARCH 2022

ABOUT THIS PROJECT

Design a striking split-panel card featuring a grayscale pencil sketch on one side and vibrant watercolour-enhanced pencil work on the other. This mixed-media approach combines watercolour washes with oil pencil details to create instant light and shade with minimal effort.

- Lay down a watercolour base first, then enhance with pencil details—this cuts corners if you don't want to spend hours colouring.
- Follow the lines already in the stamp design when adding pencil details; you don't have to think about where to place the colour.
- On regular cardstock (not watercolour card), work quickly as the card absorbs the water fast and you have less time to move the colour around.
