

Heat-Embossed Floral Image with Mixed Metallic Powders

A PROJECT FROM OUR LIVE SHOW - JOIN TONI LIVE IN THE HTCN STUDIO BROADCAST WEDNESDAY 9TH FEB 22 - 9...

ABOUT THIS PROJECT

Create a richly textured heat-embossed image by combining gold and black embossing powders on a single stamp. The layered effect produces a dimensional, grunge-style finish with raised metallic details.

TIPS FROM THE SHOW

- The ultra-high metallic gold powder creates a particularly thick, raised embossing effect similar to an embossing folder.
- Combining two different coloured powders on the same stamp creates a grunge or mixed-media aesthetic with the black picking up different areas of the design.
