Coloured Background with Black and White Decal Card

A PROJECT FROM OUR LIVE SHOW - CATCH UP WITH TONI FOR THE CREATIVE SHOW LAUNCH IN THE HTCN STUDIO...

ABOUT THIS PROJECT

Create a striking card by layering a hand-painted coloured background with navy and teal spray inks, then add a black and white decal of a fairy design. The result is a beautiful mixed-media card with both stamped and transferred elements.

- You can fussy cut elements from the decal to use different parts on separate projects.
- The decals work on glass, metal, MDF, polystyrene and many other surfaces.
