Black Cardstock Boat Card with Embossed Detail

A PROJECT FROM OUR LIVE SHOW - THE FRIDAY FINAL CUT - 6 NOVEMBER 2026

THE FINISHED PROJECT

ABOUT THIS PROJECT

Create a striking boat card on black cardstock with white pigment ink stamping and clear embossing for a sophisticated, high-contrast finish. The embossed detail creates a glass-like dimensional shimmer that makes the nautical design truly stand out. This elegant technique transforms a simple stamp into a dramatic, contemporary greeting card.

From the show: The Friday Final Cut
Shown: 6 November 2026
The project starts: 55:45 into the show
In this guide: 7 steps, a photo for every step

STUCK ON A STEP? ASK TONI

Ask Toni on our website about any project, product or technique from the show.

STEP BY STEP

STEP 1 OF 7

Cut a piece of black cardstock to your desired card size.

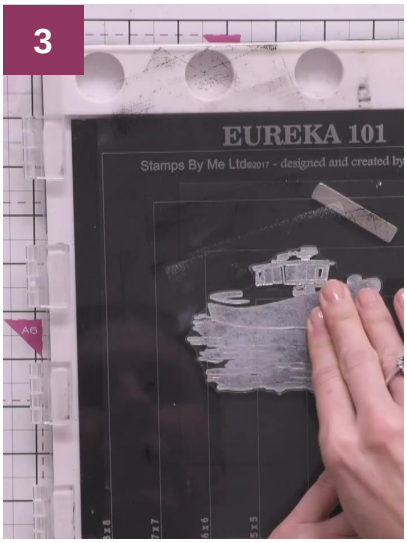

WATCH THIS STEP - 55:45

STEP 2 OF 7

Ink up the solid portion of the boat stamp using white pigment ink, ensuring even coverage across the entire stamping surface.

WATCH THIS STEP - 58:15

STEP 3 OF 7

Stamp the inked solid portion of the boat image onto the black cardstock, positioning it in the centre of the panel.

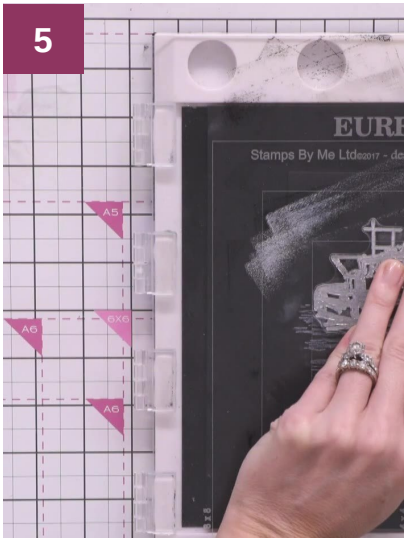

WATCH THIS STEP - 58:30

STEP 4 OF 7

Reload the stamp with white pigment ink and stamp a second time directly over the first impression to build up the white colour and create a more opaque finish.

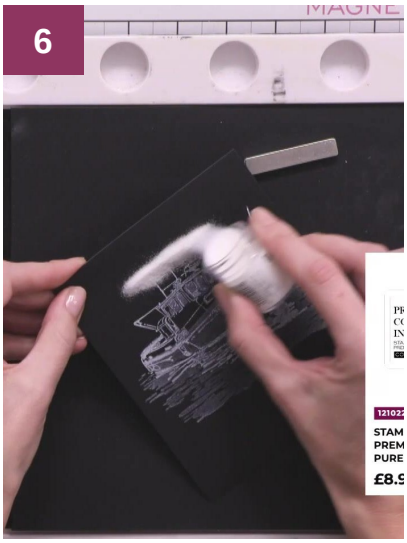

WATCH THIS STEP - 59:30

STEP 5 OF 7

Sprinkle clear gloss embossing powder over the wet white ink on the boat image. Ensure the powder covers all the stamped areas completely.

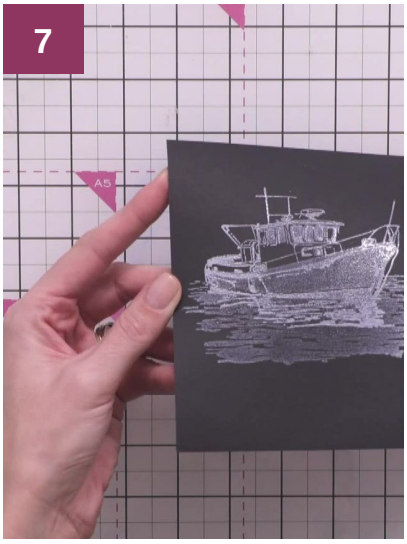

WATCH THIS STEP - 1:00:00

STEP 6 OF 7

Heat-set the white embossing powder using a heat gun, moving it over the surface until the powder melts and becomes shiny and glass-like.

WATCH THIS STEP - 1:00:45

STEP 7 OF 7

Once the embossed image has cooled, you can optionally add white details such as a moon or additional highlights to complement the embossed boat design on your black cardstock.

WATCH THIS STEP - 1:02:45

TIPS FROM THE SHOW

- Pigment ink has an oil base and stays wet longer than dye-based ink, so sealing it with clear embossing powder makes it almost glass-like and prevents smudging.
- You may need to stamp multiple times with pigment ink to build up sufficient white colour on dark cardstock.
