

Shaped Card Using Wavy Arch Die

11 SEPTEMBER 2025

Create an elegant shaped card featuring a beautiful wavy arch edge. This quick and simple technique uses a wavy arch die positioned over the fold line of a white card blank to create a decorative scalloped edge without cutting away excess card. The result is a sophisticated card base perfect for any occasion.

WHAT YOU WILL NEED

- Stamps By Me Waste Free Die Set- Wavy Arches - 260424D

STEP 1

Position your wavy arch die just over the hinge fold line at the top of your card blank. The die should overhang the fold slightly.
Watch this step: 1:11:45 into the show

STEP 2

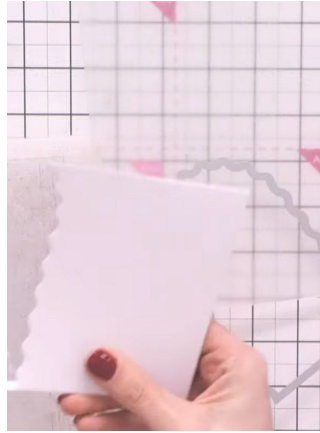

Place the card with the die on your cutting plate and run through your die cutting machine.
Watch this step: 1:12:00 into the show

STEP 3

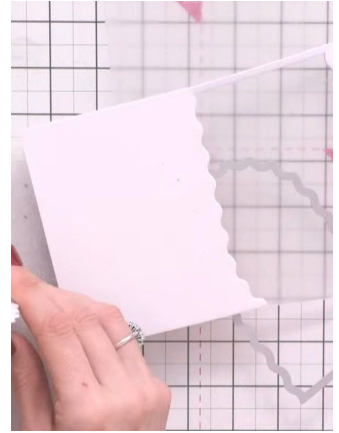

Remove the card from the die-cutting machine. You will have a shaped wavy arch edge at the top of the card with a small excess edge where the die cut through.
Watch this step: 1:12:30 into the show

STEP 4

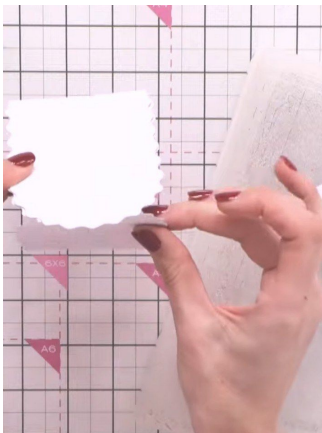

Cut a second piece of card using the same wavy arch die to create a matching shaped piece. Run the die and card through your die-cutting machine to cut out the shape.
Watch this step: 1:13:00 into the show

STEP 5

Adhere the second shaped piece directly on top of the first piece to hide the raw edge and create a neat shaped card. Massage the piece gently to ensure good adhesion.
Watch this step: 1:13:30 into the show

STEP 6

Cut two wavy arch shapes from white cardstock. Score one piece down the centre vertically. Attach the scored piece to the back of the unscored piece to create a 3D standing effect.
Watch this step: 1:14:00 into the show

TIPS FROM THE SHOW

- Hanging the die over the fold line allows you to create shaped cards without cutting away excess card stock.
- You can use two methods: layer two cut pieces together, or score and fold one piece for dimension.
