

Multicoloured Cake Lamination Card with Shadow...

29 AUGUST 2025

Create charming greeting cards featuring a decorative teapot and an ornate cake stand with beautiful vintage styling. Using the lamination stamping technique, blend multiple ink colours to achieve rich, watercolour-style depth on your images. The two-layer method adds shadow detail and dimension, elevating your stamped designs for a professional finish.

From our live show **ONE DAY SPECIAL - Join Toni for her brand new launch - Broadcast 29th August 2025** (29 August 2025) - watch it from 39:00.

WHAT YOU WILL NEED

- Carta - Traditional Watercolour Paper - A5 - WCPA501
- Stamps By Me - Craft Blank Cards & Envelopes 5 X 7 - 110425C
- Stamps By Me Lamination Stamp Set - Slice of Joy - 270125E

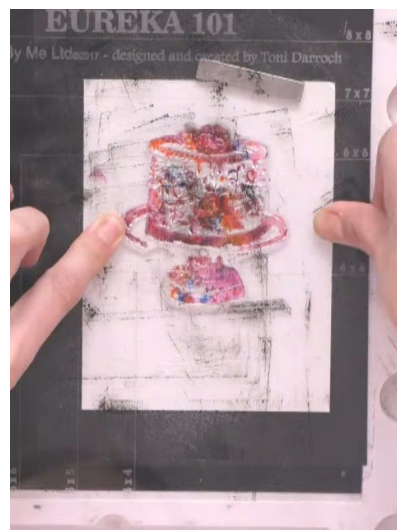

STEP 1

Take a fresh piece of A5 watercolour card. If you have already stamped on one side, turn it over to use the reverse side.

Watch this step: 39:00 into the show

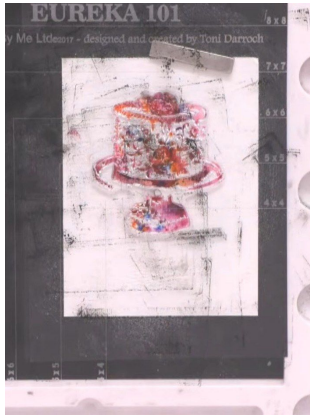

STEP 2

Apply multiple ink colours directly to the solid cake stamp using the corner of the ink pads. Use teal, pink, orange and purple to create a multicoloured effect on the stamp surface.

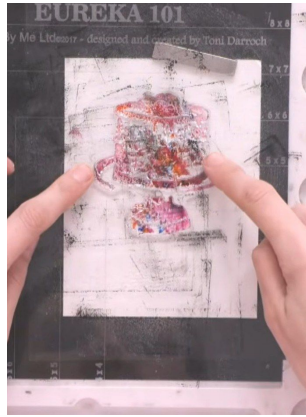

Watch this step: 40:00 into the show

STEP 3

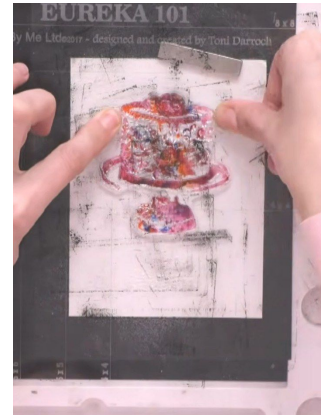

Apply ink randomly to the stamp surface, ensuring complete coverage. Use multiple colours such as teal, creating a varied, multicoloured effect across the entire stamp.
Watch this step: 40:30 into the show

STEP 4

Spray the stamped image three times with water to activate and blend the multiple ink colours together. Allow the water to sit on the card for a moment to help the colours blend.
Watch this step: 40:45 into the show

STEP 5

Allow the watercolour card to settle for a moment. Use a dry wipe or cloth to gently blot away any excess water puddles from the surface.
Watch this step: 41:00 into the show

STEP 6

Position the detail stamp over the solid cake image on your card blank, using the packet as a guide to ensure correct alignment. Make sure the first bit is lined up properly before stamping.
Watch this step: 42:30 into the show

STEP 7

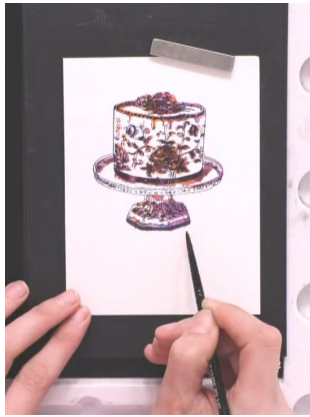

Stamp the cake image onto white card using teal ink. Press firmly and evenly to ensure all the decorative details - the flowers, beads and ornate patterns around the cake - are clearly transferred.
Watch this step: 43:15 into the show

STEP 8

If the stamped detail is not sufficiently visible, stamp the detail layer a second time using a darker ink colour to increase the contrast and make the design stand out more clearly.
Watch this step: 44:00 into the show

STEP 9

Using a paintbrush, apply heather-coloured paint to create a shadow around the base of the cake stand.

Extend the shadow outwards to ground the image and prevent it from appearing tilted.

Watch this step: 44:30 into the show

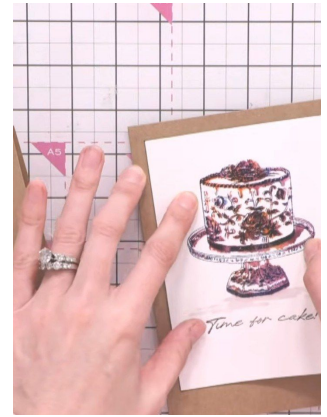

STEP 10

Trim the card to size, removing any excess paper from the bottom edge to create a neat finish.

Watch this step: 46:00 into the show

STEP 11

Tilt your ink pad and gently edge the card to create a subtle border line around the edge. This adds a finishing touch without creating harsh marks.

Watch this step: 47:00 into the show

STEP 12

Adhere the stamped panel to the kraft card blank using glue or double-sided tape, ensuring it is centred on the card front.

Watch this step: 47:45 into the show

TIPS FROM THE SHOW

- Using watercolour card allows you to blend multiple ink colours together more effectively than regular card stock.
- You can stamp the detail layer twice in different colours if the first layer does not provide enough contrast.
- Extend the shadow around the base of the object rather than just underneath to make it appear grounded and prevent a tilting effect.

PRODUCTS USED

Inspiration with out frustration - we have carefully curated all of the products used in this project to assist you in your creative journey. Click on the product images to find their availability from Stamps By Me.
