

Embossed Tree Card with Mixed Metallic Wax and...

4 AUGUST 2025

Emboss a tree design onto white card stock, then add depth by layering gilding waxes in multiple colours and finishing with a black ink pad swipe technique. This creates a sophisticated mixed-media effect with both raised and flat colour elements.

TIPS FROM THE SHOW

- The turquoise and other darker waxes show up beautifully on white card, not just on black.
- When swiping with black ink, you're picking up the texture of the embossed design—this creates a dramatic contrast.
- You can layer gilding wax colours and then go over them with ink for even more dimension.
