

Golden Paper with Embossed Rose and Dual-Tone...

4 AUGUST 2025

Use the golden frantage paper pad to create a stunning card base, then emboss a rose design and apply gilding waxes in contrasting colours—gold on one half and white ink on the other. This technique showcases how the same design can look completely different depending on your colour choices.

TIPS FROM THE SHOW

- The golden frantage paper's marble effect with gold highlights works beautifully with metallic gilding waxes.
- You can use both gilding wax and ink pad on the same embossed design for a mixed-media look.
- Experimenting with half-and-half colour applications helps you see which finish you prefer before committing to a full card.
