

Shaped Gradient Card with Layered Paper Panels

2 JUNE 2025

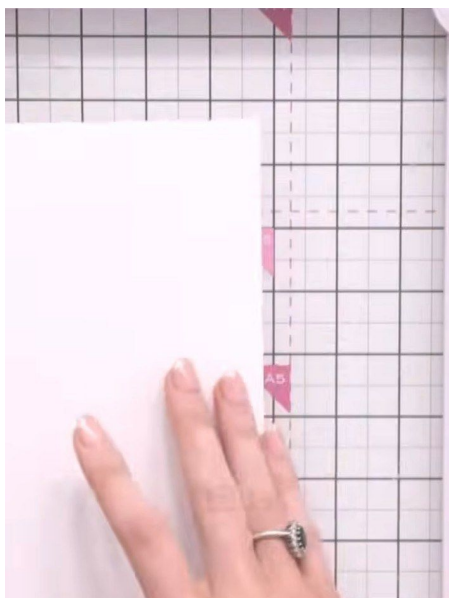

Make a stunning three-panel stepped card featuring the romantic Sweet Serenity collection in soft pinks, lavenders and golds. Each panel is layered with white-bordered decorative papers showcasing vintage teacups, delicate florals and elegant cake designs. The graduated sizing creates a beautiful cascading effect that adds dimension and sophistication to this special handmade card.

WHAT YOU WILL NEED

- Create Together Club - Chapter 6 - 170325A

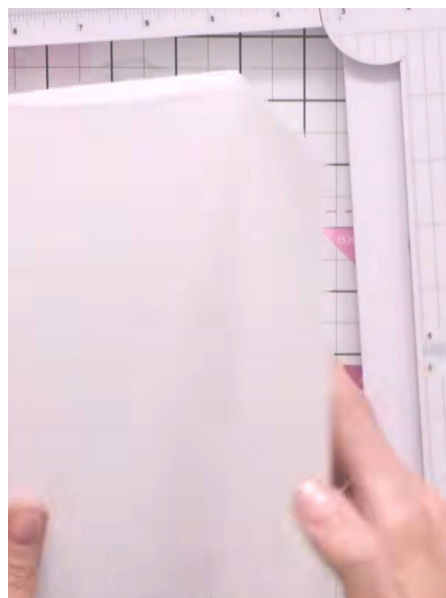

STEP 1

Cut a piece of white card stock to 30 cm long. Score at 10 cm and 20 cm to create three equal panels for your card base.

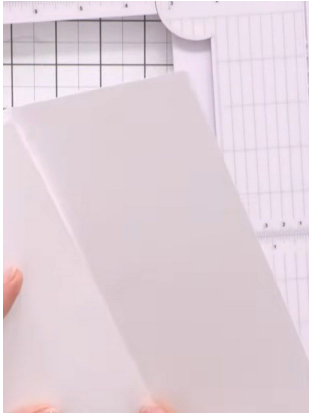

Watch this step: 19:00 into the show

STEP 2

Fold the card at each score line, alternating the direction of each fold to create a concertina effect with fold-forward and fold-back creases.

Watch this step: 20:30 into the show

STEP 3

Place the folded card in your guillotine at an angle and cut from the top point downwards to create a tapered shape.

Watch this step: 21:00 into the show

STEP 4

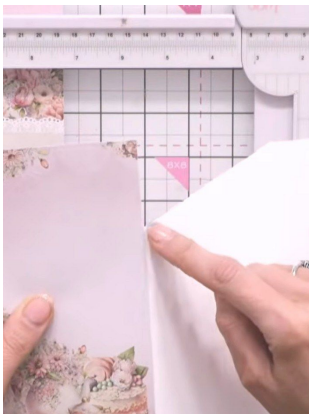

Select three pieces of patterned paper from the 7 by 7 inch pad, choosing designs that complement each other with coordinating colours and patterns.

Watch this step: 22:15 into the show

STEP 5

Cut each decorative paper panel slightly smaller than the card panel size, approximately 9.5 cm, to create a white border around the edges when mounted.

Watch this step: 23:15 into the show

STEP 6

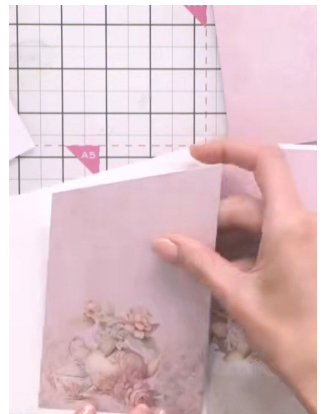

Cut a second piece of decorative paper slightly smaller than the first. Mark a point along the top edge where you want the border line to end, then cut diagonally from this point down to create the angled border edge.

Watch this step: 33:30 into the show

STEP 7

Adhere all three decorated panels to the card base using tape, aligning them with the top edge of the card.

Watch this step: 36:45 into the show

STEP 8

Fussy cut the embellishments from the embellishment pack, including the lady figure and decorative floral elements. Cut carefully around the detailed edges to create neat die-cut style pieces.

Watch this step: 40:00 into the show

STEP 9

Attach the fussy-cut lady figure to the front of the card using foam pads to add dimension.

Watch this step: 41:00 into the show

STEP 10

Add decorative embellishments from the pack to the inside flap of the card to create an interesting panel. Layer the pieces to add dimension and visual interest to the inner section.

Watch this step: 42:00 into the show

TIPS FROM THE SHOW

- You can decorate the full sheets and panels before cutting, or decorate after cutting – both methods work.
- Keep all your off-cuts as they are brilliant for tags and small projects later in the week.
- Don't be afraid to use the paper collection generously; you have plenty to work with.
