

Layered Floral Card with Fussy-Cut Elements

25 APRIL 2025

Create a beautiful layered floral card featuring vintage-style botanicals from the Classic Garden paper collection. This sophisticated design combines fussy-cut flowers and foliage arranged in a collage style with dimensional foam pads for depth. The finished card showcases soft pink and cream tones with delicate floral imagery and a 'Best Buddies' sentiment.

STEP 2

Use the stamp without applying full pressure to create a subtle, partial impression on your pink background paper. This adds delicate detail without overwhelming the design.

STEP 3

Create multiple card layers using mats and layers from the Classic Garden paper collection. Position the decorative papers with the black frame mat to build up your card front layers.

STEP 4

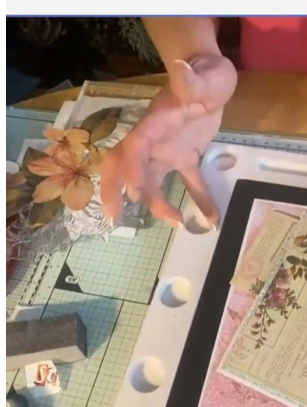

Fussy cut beautiful floral elements from the decorative paper. Carefully cut around the flowers and botanical motifs to create individual embellishments for layering.

STEP 5

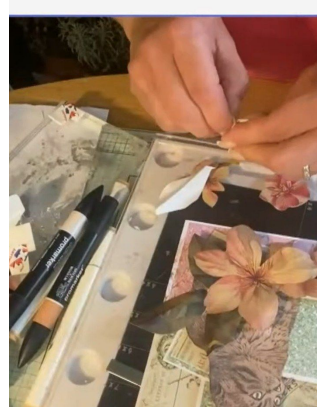

Add dimension to your fussy-cut floral elements by gently creasing them down the centre and pulling back the petals. This creates a sculptural, three-dimensional effect that will add depth to your card design.
Watch this step: 33:30 into the show

STEP 6

Layer the floral elements onto your card base using foam pads to create a 3D effect. Position the fussy-cut flowers and leaves over the patterned paper panels, building up dimension.
Watch this step: 34:15 into the show

STEP 7

Add smaller floral elements and leaves to build up the bloom. Layer the additional pieces around the main flower to create depth and balance. Position the elements to complement the overall design.
Watch this step: 34:45 into the show

STEP 8

Place a circle die cut over the top of your layered project, positioning it to frame the main floral element and 'BEST BUDDIES' sentiment.

STEP 9

Apply confetti ink over the circle die cut using a sponge applicator to add painted detail and finish the design.

Watch this step: 43:00 into the show

TIPS FROM THE SHOW

- If your blooms are not as large as you want, layer additional floral elements underneath to build them up.
- You can add paint on top of the paper collection designs to elevate the finished card.
- Creasing leaves in the middle and pulling them back creates natural-looking dimension.
