

Layered Stencil Bird Card with Shaped Die-Cut

14 APRIL 2025

Create a dimensional bird card using layered stencils and coordinating die-cuts. This project builds up colour through multiple stencil layers, then adds a detailed overlay die to create a striking 3D effect on a shaped card blank.

TIPS FROM THE SHOW

- You don't have to use all elements of the stencil system; you can use just segments of the stencils for variation.
- You can use any ink pads from your existing stash; you don't need specialised inks for this system.
- For a high-end look, create the card in tones of grey and brown rather than multiple bright colours.
