

Stamped Poppy Card with Coloured Card Stock

14 FEBRUARY 2025

Create a striking card by stamping a large poppy flower onto multiple pieces of coloured card stock without moving the stamp. This technique allows you to produce several cards with the same design on different coloured backgrounds, giving you options to choose your favourite colour combination.

From our live show **Create Together Club - 5 Days of Creativity - Broadcast Friday 14TH Feb 2025** (14 February 2025) - watch it from 11:00.

TIPS FROM THE SHOW

- Do not move your stamp between stampings—this is key to the technique.
- You may need to stamp twice on textured card stock to get good detail in all the grooves.
- If you have multiple pieces of card stock, you can cut them into strips and paper piece them back together to create additional unique cards from the offcuts.
