

Quattro D Paris Tower Layered Card

21 DECEMBER 2024

Create a stunning multi-layered card featuring the iconic Eiffel Tower with beautiful purple and yellow floral elements. This elegant design combines stencilling, stamping, and embossing techniques on sparkly black cardstock to create a sophisticated dimensional piece. The four-stage Quattro D system brings depth and artistry to this Parisian-themed card.

TIPS FROM THE SHOW

- You can use each stage of Quattro D independently—stencils alone, stamp alone, or embossing folder alone.
- The heart guides in the corners help you line up stencils seamlessly without needing to match them precisely.
- Mimic the colours of your background paper in your design to create a cohesive, unique personal style.
