

Layering Stencil Hydrangea Card

15 AUGUST 2026

Build a stunning dimensional floral card using numbered layering stencils and coordinating dies. Layer ink through each stencil in sequence to create realistic depth and shading, finishing with optional water spray for an artistic watercolour effect.

From our live show **HOBBYMAKER TV - Join us for the latest show - Broadcast 2 p.m. (UK) 15th August 2026** (15 August 2026) - watch it from 41:30.

WHAT YOU WILL NEED

See the show for everything used.

Lay the first numbered stencil (marked '1') on your card stock, aligning it with the edge of the card.

TIPS FROM THE SHOW

- Do not wash your stencils between cards if making multiple designs—keep them ready to use and wash only at the end.
- Start with the lightest ink on the first layer and gradually increase pressure and darkness with each subsequent stencil.
- You do not have to use all the stencils in the set; use them creatively over corners or partial areas of your card for variety.
