

A2 Embossed Card with Water and Ink Wash...

27 AUGUST 2024

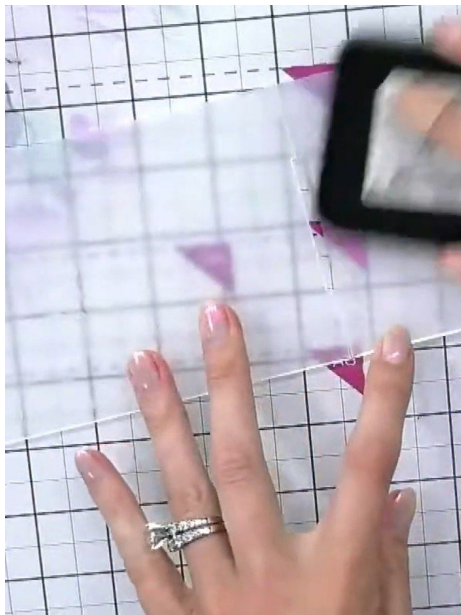

Create a stunning embossed card with a beautiful watercolour stone effect finish. Using the All Occasions 3D embossing folder, you'll emboss a floral design with a decorative frame, then apply ink and water to both sides to achieve an atmospheric, weathered look in soft blues and greys. This elegant technique transforms simple cardstock into a sophisticated A2 card perfect for any occasion.

From our live show **CREATE AND CRAFT TV - New and Exclusive - Broadcast 27th August 24** (27 August 2024) - watch it from 33:00.

WHAT YOU WILL NEED

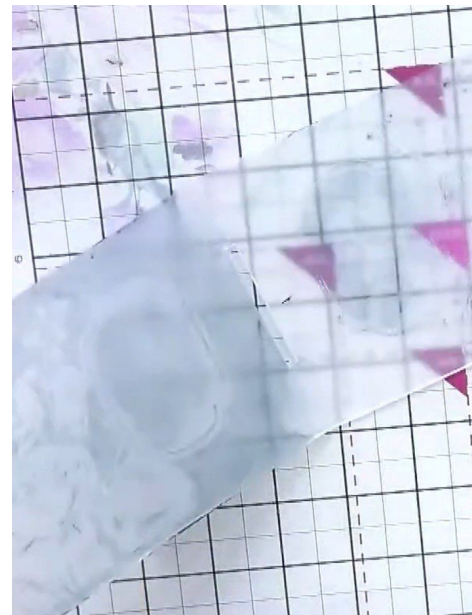

See the show for everything used.

STEP 1

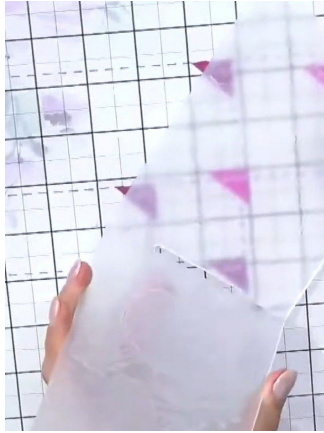

Place your A2 embossing folder into your die-cutting machine. Run it through the machine to emboss the design onto your card. Watch this step: 33:00 into the show

STEP 2

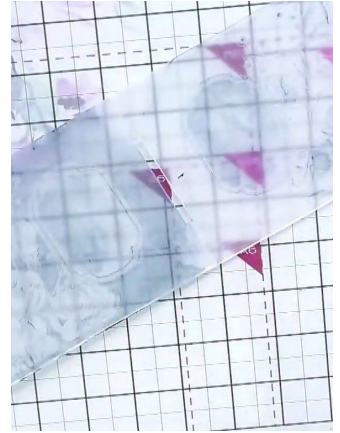

Apply blue ink pad to both sides of the embossing folder, gently smooshing the ink pad over the raised design to coat it evenly. Watch this step: 33:30 into the show

STEP 3

Lightly spray the embossed folder with water using an ink pad or spray bottle to create a watercolour effect on the embossed design.
Watch this step: 34:00 into the show

STEP 4

Place your inked and wet card into the embossing folder. Run the folder through your die-cutting machine to emboss the design and transfer the ink pattern onto the card.
Watch this step: 34:30 into the show

STEP 5

Remove the embossed card from the cutting mat and set it aside to dry completely. The water and ink will create an atmospheric wash effect as it dries.
Watch this step: 35:00 into the show

STEP 6

If the embossed design appears too light on one side, use a white ink pad to go back over the flowers and restore the detail.
 Gently dab the ink pad over the raised areas to enhance the white embossed elements.
Watch this step: 35:30 into the show

TIPS FROM THE SHOW

- Don't spray too much water or you'll create a mess; you can always spray again with less water next time.
- Both sides of the embossed design can look different, so check both before deciding which is your favourite.
- If you lose detail with darker ink, use white ink pad to bring the flowers back to life.
