

Foil Coloring Book Page Card

8 AUGUST 2026

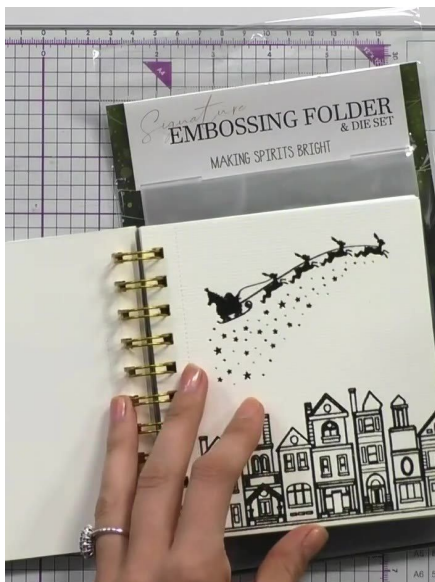

Create a beautiful greeting card featuring a winter village scene with a church tower, bare tree and crescent moon. The design is embossed with gold foil which acts as a resist when colouring, making it easy to add colour within the lines. This elegant card uses simple colouring techniques to achieve a professional finish with a festive, atmospheric feel.

STEP 2

Colour the stamped image using watercolours, paints or coloured pencils. The foiled areas will resist the colour, creating definition and contrast in your design.

STEP 5

Once the colouring is dry, carefully tear out the completed page along the perforation at the side of the colouring book. The page should separate cleanly from the spiral binding.

Mount your coloured page onto a card blank using adhesive. Ensure the design is centred and press down firmly to secure it in place.

Add a sentiment or greeting to complete your card. Position a 'Happy Birthday' or festive sentiment stamp on the white panel at the top right of the card. The embossing folder can also be used to add texture to other elements if desired.

TIPS FROM THE SHOW

- The gold foil acts as a resist, so colour flows around it and creates professional-looking results without needing advanced colouring skills
- Use watercolour card (300gsm cotton content) for best results—it stays wet longer and allows you to move colour around for seamless blending
- You can add sparkles, snow effects or 3D embossing to your finished coloured pages for extra dimension
