

Embossed Black Card with White Ink

19 AUGUST 2024

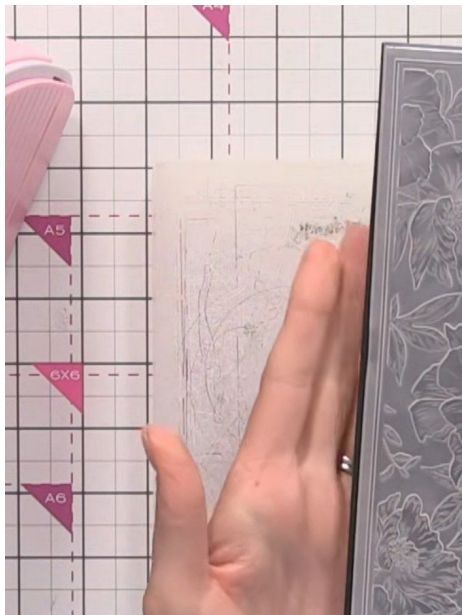

Create a stunning slimline card featuring an intricate floral design embossed on black cardstock and highlighted with white ink. The 3D embossing creates beautiful raised texture across the entire card front, with delicate flowers and leaves creating an elegant monochrome effect. This sophisticated technique combines embossing and stamping to produce a striking contrast perfect for special occasions.

TIPS FROM THE SHOW

- The shamfered edge around the folder adds an elegant frame to your card without needing to trim.
- Embossing folders work beautifully on their own without additional colour or ink for a clean and simple design.

Gently tap the white ink pad across the embossed design to ensure full coverage of all the raised detail.

Watch this step: 41:00 into the show

Admire the beautiful contrast between the white embossed floral detail and the black cardstock. The embossed design creates an elegant, sophisticated finish with the raised pattern standing out against the dark background.
