

Monochromatic Tone-on-Tone Card

30 MAY 2024

Make a sophisticated monochromatic card that showcases the beauty of working within a single colour palette. Using grey tones on white cardstock, you'll layer stamped heart motifs to create depth and dimension without colour variation. This elegant, minimalist design demonstrates how restraint in colour can produce striking results.

From our live show **CRAFT BATTLE USING THE BOOKAZINE** - Join the fun, chaos and intense creativity as Toni and Sarah go **HEAD-TO-HEAD** - broadcast 30th May 24 (30 May 2024) - watch it from 1:02:00.

Layer additional stamping at different intensities to create depth. Use the same stamp with varying pressure or ink coverage to build up tonal variations on your white panel. This creates visual interest through subtle differences in the darkness of each stamped impression.

Layer different tones of your chosen colour to create depth and visual interest. Stamp the tree line image in a darker shade at the top of your pink card panel, then add lighter pink elements below to build a tonal composition.
