

3D Layered Circular Sentiment Card

10 OCTOBER 2026

Create a charming dimensional birthday card featuring circular layered elements with a rustic woodland theme. The design showcases a boy hugging a dog in muted tones, complemented by white daisies and greenery, with a 'Happy Birthday' sentiment. Learn how to build height and dimension using die-cut circles and homemade foam pads from scrap card stock for a budget-friendly approach to 3D cardmaking. From our live show **HOBBYMAKER TV - Join us for the latest show - Broadcast 5 p.m. (UK) 10th October 2026** (10 October 2026) - watch it from 41:00.

WHAT YOU WILL NEED

See the show for everything used.

Cut multiple small pieces from scrap white card stock to use as homemade foam pads. These will be used to add dimension to your card layers.

Watch this step: 43:00 into the show

STEP 2

Adhere small scrap pieces of foam or card to the back of your first circular element using glue. This will create dimension when layering the elements on your card.

Watch this step: 43:30 into the show

STEP 3

Stick the layered circle to your card base. Position it on the decorative panel with the flowers and fan design.
Watch this step: 43:45 into the show

STEP 4

Stamp a 'Happy Birthday' sentiment onto a second circular element. Position this stamped circle on the card alongside the decorative floral circle.
Watch this step: 44:00 into the show

STEP 5

Build up height by adhering scrap card pieces to the back of the second circle. Apply glue to small pieces of card and layer them on the reverse of the circular topper to create dimension.
Watch this step: 44:15 into the show

STEP 6

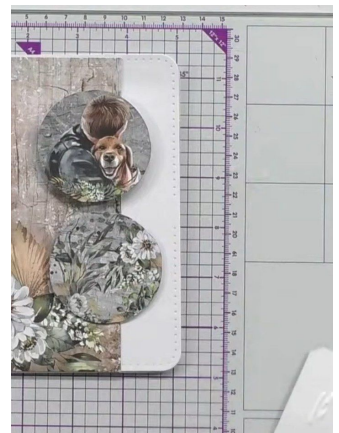

Layer the second decorative circle on top of the first circle using foam pads or adhesive, creating multiple levels of dimension on your card.
Watch this step: 44:30 into the show

STEP 7

Add a third circular element with floral and foliage design to the lower portion of the card for additional layering and visual interest.
Watch this step: 45:00 into the show

STEP 8

Check that all circular layers are firmly attached to the card base and each other. Allow the adhesive to dry completely before handling or displaying the finished card.
Watch this step: 45:30 into the show

TIPS FROM THE SHOW

- Cut scrap pieces neatly for a more professional finish, though rough edges will be hidden behind the top layer.
- You can overlap circles and vary the heights of your foam pad layers for dynamic dimension.
- This technique is perfect for using up your scrap box and reducing waste.
