

Beautiful Kit Shaker Card with House and Characters

22 SEPTEMBER 2026

Create a shaker card using the Beautiful kit components. This card features a window aperture with moving sequins inside, a layered design with a house backdrop, and cute character toppers that add dimension and movement to the card.

Cut a rectangular window out of the front card using scissors, following a white guideline if available.

Watch this step: 21:30 into the show

Enlarge the window opening slightly by making small cuts at each corner with scissors or a trimmer blade.

Watch this step: 23:00 into the show

Use a dark-coloured brush to colour in the white edges around your cut window to hide any harsh lines.

Fussy cut the house character from the kit papers, cutting carefully around the outline.

Watch this step: 27:00 into the show

Fussy cut additional characters—a ghost and a girl—from the kit, removing any unwanted drips or details with scissors.

Watch this step: 30:00 into the show

Cut a clear plastic bag (from the kit packaging) to size and trim away the top and bottom flaps to create a shaker window.

Watch this step: 34:30 into the show

Apply double-sided tape or foam pads all the way around the back of your card window, ensuring no gaps remain.

Adhere the plastic bag window to the taped foam pads, smoothing it down carefully to avoid lumps and bubbles.

Watch this step: 39:30 into the show

Place the fussy-cut house card flat inside the window as your background layer. Watch this step: 43:00 into the show

Apply foam pads to the back of the fussy-cut characters and adhere them inside the window, positioning them at different heights. Watch this step: 45:30 into the show

Scatter sequins around the inside of the window—use a moderate amount so the card shakes freely without being too sparse.

Watch this step: 47:00 into the show

Remove the backing from all foam pads and press the window assembly firmly onto the front card, massaging it into place.

Watch this step: 49:30 into the show

Adhere a sentiment topper with foam pads to raise it above the card surface for added dimension. Watch this step: 51:00 into the show

TIPS FROM THE SHOW

- If you don't have a commercial shaker window, repurpose a clear plastic bag from your kit packaging as an alternative.
- When applying foam pads around the window, ensure they go side to side and bottom to bottom with no gaps, or your sequins will escape.
- Don't overfill your shaker with sequins—use just enough so the card shakes freely when moved.
