

Lavender Stencil Background Card

A PROJECT FROM OUR LIVE SHOW - CREATE AND CRAFT TV - 3 APRIL 2024

ABOUT THIS PROJECT

Create a beautiful layered lavender field background using stencils and ink pads. This technique builds depth and perspective by layering multiple stencil applications in varying shades of purple and green to create a muted, naturalistic landscape effect.

TIPS FROM THE SHOW

- You can use stencils with mixed media techniques just like you would with traditional stencils.
- Layering the same stencil at different angles and with varying ink intensity creates natural-looking depth.
- Don't worry about keeping the design neat and contained—stencils are forgiving and versatile.
