

Stella Lady Card with Stencil Layering Technique

17 JULY 2026

Demonstrate the core stencil layering system for the Stella lady collection. Build dimension and shading through five numbered stencils applied in sequence with coordinating ink colours, then stamp the figure on top to create a fully rendered fashion illustration with professional-looking depth and detail.

From our live show **THE BRAND NEW LAUNCH - Join Toni in her UK Studios - Broadcast 17th July 2026** (17 July 2026) - watch it from 1:17:30.

Remove stencil one and position stencil two directly beside it, pressing the same ink pad slightly harder.

Continue with stencils three, four and five, pressing progressively harder and changing to a red or orange shade for the interior jacket detail on stencil four.

Watch this step: 1:20:15 into the show

Stamp the Stella figure in black ink on top of the completed stencil layers, positioning her so her chin sits in the neck of the roll neck and her arms align with the layered shapes.

TIPS FROM THE SHOW

- Always check stencil numbers are facing you, not reversed, or the stamp won't fit properly.
- When making one card, make five instead—do all stencil number ones, then all number twos, etc., to avoid repeatedly cleaning stencils.
- The layering system hides any imperfections in your stencilling, so don't worry about achieving perfect coverage on each layer.
