

Perfect Blooms Layered Stencil Card with Die-Cut Shaped Finish

A PROJECT FROM OUR LIVE SHOW - CREATE AND CRAFT TV - 25 FEBRUARY 2024

ABOUT THIS PROJECT

A stunning dimensional card created using six layering stencils with coordinating die-cuts. You build up colour in stages using ink pads, then add an optional sparkle paste layer, before finishing with an exterior die to create a shaped card. The result looks intricately detailed but is surprisingly simple to achieve.

- You can stop after the stencil layers without using the die-cut if you prefer a simpler finish.
- If you want to darken an area after removing a stencil, simply line it back up in the corner and apply more colour.
- Batch make multiple stencilled versions in different colour combinations, then matt, layer and finish them later when you have time to breathe.
