ABOUT THIS PROJECT

A delicate floral design created by stencilling onto a decorative mount using coloured ink and sparkle paste. The technique combines ink blending with dimensional sparkle paste to create an elegant, raised focal point perfect for card making.

TIPS FROM THE SHOW

- You can use the stencil on its own without any colour underneath if you prefer a clean sparkle effect.
- The sparkle paste has an underlay of glue which disperses, leaving just the sparkle visible.
- These stencilled flowers work beautifully as focal points and need minimal additional embellishment.
